About the Seminar

A two days National Seminar on Biodiversity: Issues and Impact on Human Health, sponsored by Directorate of Higher Education, Govt. of Uttar Pradesh is scheduled on 26th and 27th March 2025 at Dayanand Girls' P.G. College, Kanpur.

Humans depend upon biodiversity for survival and their activities disrupt biodiversity and ecosystem affecting their structure, functions, climate change and pollution. Biodiversity gives resilience from the microbes that contribute to the formation of human biome, to the genes that help us adapt to stress in the environment, supports all the forms of livelihoods, may help to regulate disease.

The seminar will provide a unique opportunity for traditional health practitioners and policy makers to learn from each other and develop recommendations for policy and practice. This seminar will provide a platform to the participants to discuss the challenges and remedies aimed at the topic. The seminar aims to provide valuable networking opportunities for participants to connect with experts, researchers and policy makers.

We are delighted to invite you to this National Seminar. Your esteemed presence and valuable insights will enrich the discussions and contribute to the success of seminar. We eagerly look forward to welcoming you to this event. Looking forward for your participation.

Themes

- Biodiversity
- Human Health
- Environmental Stressors
- Sustainable Development
- Green Technology
- Environmental Pollution

About the College and Department

Dayanand Girls P.G. College, Kanpur was established in 1959 by a great education reformist and visionary Dr. Virendra Swarup, followed by his eminent son late Dr. Nagendra Swarup and this legacy is being continued by his son Er. Gauravendra Swarup. This is a popular girls college located in the heart of the city and is known for imparting quality education to girls. The Department of Zoology was established in 1967 and is known for its academic and research excellence. Since its establishment the Department has focussed on not only providing excellent quality education but also has tried to establish an exemplary research environment with emphasis on inter-relationship of biotic and abiotic factors and their subsequent effects on biodiversity. The Department has a well-established record of guiding students for attaining their doctoral degrees. Teachers also provide guidance to undergraduate and postgraduate students for dissertations, projects, assignments etc. and harbour congenial relationship with all our students. The department also boasts of a well-stocked library with relevant books and material. Our museum specimens are also continuously updated depending on the requirement of the syllabus. Last but not the least the department has a firm foundation in the form of hard-working faculty who actively participate in teaching, research activities, support syllabus restructuring at university level along with an equally helpful clerical and ministerial staff.

Call for Abstracts

The participants are requested to submit abstracts for oral and poster session. The abstract should not exceed 300 words typed in English on A-4 size paper keeping double space in MS word, Times New Roman, 12 font size. It should contain title (16 font size), name of author(s) along with e-mail address. A soft copy of the abstract should be e-mailed to zoology.dgpg@gmail.com. Last date of abstract submission is **22nd March 2025**.

Participants can register for the seminar with the help of following link - [Registration link](https://forms.gle/uRQ7sEPfhRUDvjAy6)
